THE HISTORY OF NETWORK **211**

Network211 is a world missionary ministry focused on global evangelism and discipleship via the Internet. Founded by Dr. George M. Flattery in 1997, and now led by Dr. Mark Flattery, we use 21st century technology to deliver the 1st century Gospel to people searching online worldwide.

Our vision is to proclaim the life-changing truth of Jesus Christ to all people, build a global community of believers, and work with our partners in ministry. In October 2008 we launched **Project 10Million** with the evangelism goal of reaching ten million people in ten years. The Lord allowed us to complete this in five years. Now, **Project 100Million** has seen 23.5 million visitors with 1.5 million of them making an evangelism response and over 225,000 starting a discipleship connection.

Answering those who respond to our key evangelism sites, www.JourneyAnswers.com and www.WhoJesusIs.com, are our teams of over 800 volunteers who are called, "1-2-1 Connectors." They direct people to www.GlobalChristianCenter.com, our online church, and then to a local church.

The access to people who are searching online for life answers allows us an unprecedented opportunity. While many are looking for people to help, Network211 is helping people who are looking!

THE BIRTH OF THE WARRIOR'S JOURNEY

Network211 is compelled to take this same model of reaching people online as they search for life answers and apply it to reach our Military members and their families. We are preparing www.TheWarriorsJourney.org as a site that addresses the unique issues face by both active and retired Warriors as well as their families.

Col. Scott McChrystal USA (Ret.), along with personnel from the Pentagon and military installations, have worked to help us discover the top needs of military members and their families. Isolation, Identity, Moral Injury, Separation and Reintegration, along with many who are working through PTSD, are just some of the issues we are providing answers and resources to bring Warriors and their families to wholeness. We are providing content for members who are **Navigating** through the unique issues that military life presents; help for those who need to **Support** and **Lead** our Warriors, and resources for those who find themselves **Preparing** for every event experienced by a Warrior or a member of their family.

Through your partnership, you empower warriors and their families to discover their journey with God.
TheWarriorsJourney.org

WHAT IS THE WARRIORS JOURNEY?

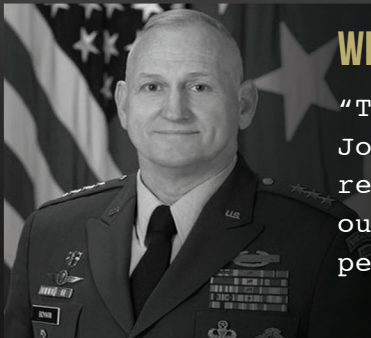

The Warrior's Journey is an online resource for military warriors and their families. The site presents the message of the gospel as a path to finding wholeness in everyday life. Thanks to our partnerships with various foundations and nonprofits, we are able to present a wide range of resources that cover the unique challenges that warriors face, both in the field and at home.

Through the power of the internet, The Warrior's Journey website offers the opportunity to reach millions of veterans, active service men and women and their families with a critical source of guidance, support and resources that is so important to their military journey. We are already beginning to see that this online resource will have a profound effect with unprecedented responses.

ENDORSEMENTS

WILLIAM G. "JERRY" BOYKIN, LT. GENERAL US ARMY (RET.)

"Through their worldwide volunteer network, 'The Warrior's Journey' organization has dedicated themselves, and their resources, to assist every member of every branch of our military, both at home or abroad, in their times of personal crisis."

STANLEY MCCHRISTAL, GENERAL US ARMY (RET.)

"The efforts of 'The Warrior's Journey' are having a profound effect on building, and even rebuilding, the lives of our Warriors. This organization is offering opportunities to every Warrior, and to their families, on a scale never seen before. I'm confident that through their relational work, we will continue to see an impactful difference in the lives of all our troops, and those connected to them."
